New Business

2nd Public Hearing - Chelsie Rd. and Brush Creek— This was the second of three hearings required by state statute. Residents in favor restated their concerns from the first hearing regarding the limited sight distance over the hill and the angle of the "Y" intersection. Dan P. also spoke in favor and stated traffic has gotten horrible in this area and the intersection is a major hazard. Another resident in favor stated drivers must pull out at a 45 degree angle across the other lane to see over the ridge. A few citizens that were in opposition stated concerns with having to stop at the crest of the hill during winter weather and only knowing of a few incidents at the intersection in their years of driving it. Alternative options mentioned included "dangerous intersection" warning signs, a yield sign, and lowering the speed limit. Commissioner Skelton stated the Commission will talk with Road &

Bridge again and will consider options other than a stop sign. No motions were made.

The final of three public hearings will be held on Thursday, October 29, 2026.

2nd Public Hearing- Sellers Rd., Everly Loop & Lake Rd. 7-6 — This was the second of three hearings required by state statute. Residents in favor restated their concerns from the first hearing regarding the intersection being scary, unsafe and the visibility being poor. Alan Roberts, HOA President of Summer Place Condominiums, submitted an additional 54 emails for a total of 89 from Summer Place homeowners in support of this request, and stated that under the Manual on Uniform Traffic Control Devices (MUTCD), sight distance alone can support an engineering study for an all-way stop. A few citizens that were in opposition stated concerns with stopping on the hill, rear-end collisions, inclement weather, and heavy equipment and school buses having to stop, and believed accident statistics and a traffic study should be done before any decision. Alternative options mentioned included flashing intersection warning signs, removing the spur, painting defined stop lines, and clearing vegetation. The Commission stated they believe other options other than an all-way stop may be best, but an engineering study will likely be needed. No motions were made.

The final of three public hearings will be held on Thursday, October 29, 2026

The motion passed by vote: Commissioner Skelton (aye) and Commissioner Gohagan (aye).

At this time Commissioner Skelton asked if there anyone who would like to bring anything before the Commission that is not otherwise on the agenda. Commissioner Gohagan stated that the County has about 30 different tasks that need to be finished before the end of the year. Some of those tasks include: the healthcare fund appropriation, an amended tax surplus fund, and many budget amendments. Commissioner Skelton stated these are items the Commission knows need to be done, but cannot initiate. No motions were made.
